To Whom it May Concern

I certify on behalf of Esso Exploration and Production Chad Inc. that Peschaud et Cie International has been our Infield Logistics contractor since November 2001, they provide transportation and handling of equipments and materials of all drilling contractors for all exploration and development work on a 24 hours / day service.

Peschaud is also in charge of all frac-tanks (46) movement between wells and is frequently involved in other field logistic operations and heavy loads activities as they operate their own fleet of cranes, trucks, trailers and forklift trucks in a very professional way and in full compliance with Esso's QHSE standards. Their safety record is excellent with no accidents or LTI's since they began serving the project.

Should you require more information, please don't hesitate to contact me at gustavo.e.barbera@exxonmobil.com

Yours truly,
